Cascade Surgeons Payment Policy

Thank you for choosing Cascade Surgeons for your surgical care. We are committed to providing you with quality and affordable health care. Because some of our patients have had questions regarding patient and insurance responsibility for services rendered, we have been advised to develop this payment policy. Please read it, ask us any question you may have, and sign in the space provided. A copy will be provided to you upon request.

1. **Insurance.** We participate in most insurance plans, including Medicare. If you are not insured by a plan we do business with, payment in full is expected at each visit. If you are insured by a plan we do business with but don't have an up-to-date insurance card, payment in full for each visit is required until we can verify your coverage. Knowing your insurance benefits is your responsibility. Please contact your insurance company with any questions you may have regarding your coverage.
2. **Co-payments.** All co-payments must be paid at the time of service. This arrangement is part of your contract with your insurance company. Failure on our part to collect co-payments from patients can be considered fraud. Please help us in upholding the law by paying your co-payments at the time of visit.
3. **Non-covered services.** Please be aware that some - and perhaps all - of the services you receive may be non-covered or not considered reasonable or necessary by Medicare or other insurers. You must pay for these services in full at the time of visit.
4. **Proof of insurance.** All patients must complete our patient information form before seeing the doctor. We must obtain a copy of your driver's license and current valid insurance to provide proof of insurance. If you fail to provide us with the correct insurance information in a timely manner, you may be responsible for the balance of a claim.
5. **Claims submission.** We will submit your claims and assist you in any way we reasonable can to help get your claims paid. Your insurance company may need you to supply certain information directly. It is your responsibility to comply with their request. Please be aware that the balance of your claim is your responsibility whether or not your insurance company pays your claim. Your insurance benefit is a contract between you and your insurance company; we are not party to that contract.
6. **Coverage changes.** If your insurance changes, please notify us before your next visit so we can make the appropriate changes to help you receive your maximum benefits. If your insurance company does not pay your claim in 45 days, the balance will automatically be billed to you.
7. **Nonpayment.** If your account is over 90 days past due, you will receive a letter stating that you have 20 days to pay your account in full. Partial payments will not be accepted unless otherwise negotiated. Please be aware that if a balance remains unpaid, we may refer your account to a collections agency and you and your immediate family members may be discharged from this practice. If this is to occur, you will be notified by regular and certified mail that you have 30 days to find alternative medical care. During that 30-day period, our physician will only be able to treat you on an emergency basis.

Our practice is committed to providing the best treatment to our patients. Our prices are representative of the usual and customary charge for our area.

Thank you for understanding our payment policy. Please let us know if you have any questions or concerns.

I have read and understand the payment policy and agree to abide by its guidelines:

Colonoscopy: What you need to know!

The affordable Care Act passed in March 2010 allowed for several preventative services, such as colonoscopies, to be covered at no cost to the patient. However, there are many caveats that prevent patients from taking advantage of this provision. There are now strict guidelines on which colonoscopies are defined as a preventative/screening service.

These guidelines may exclude many patients with gastrointestinal histories from taking advantage of the service at no cost. Patients may also be required to pay co-pays and deductibles.

Our practice has created this document to sort through some of the confusion and misinformation out there.

Here is what you need to know:

Colonoscopy Categories:

Diagnostic/Therapeutic colonoscopy:

Patient has current or recent gastrointestinal symptoms that require further investigation.

Diagnostic/High Risk colonoscopy:

Patient is asymptomatic (no gastrointestinal symptoms either past or present), has a personal history of gastrointestinal disease, colon polyps, personal or family history of colon cancer. Patients in this category are required to undergo colonoscopy surveillance at shortened intervals.

Preventative/Screening colonoscopy:

Patient is asymptomatic (no gastrointestinal symptoms either past or present), over the age of 50, has no personal or family history of gastrointestinal disease, symptoms, **colon polyps**, or cancer. The patient has not undergone a colonoscopy within the last 10 years.

Your primary care physician may refer you for a “screening” colonoscopy; however, you may not qualify for the “screening” category. This is determined in the pre-operative process. Before the procedure, you should know your colonoscopy category. After establishing what type of procedure you are having, you can do some research.

Who will bill me?

You may receive bills from separate entities associated with your procedure, such as the physician, facility, anesthesiologist, pathologist, and/or laboratory. Cascade Surgeons can only provide you with information associated with our fees.

How will I know what I will owe?

Gather your personal coding information.

Obtain the preoperative CPT (procedure code) and ICD-10 (diagnosis code) as well as the facility name from our office.

CPT code: 45378 ICD-10 code: _____ Facility: _____

Call your insurance company and ask the following questions. You will need to give the insurance representative your preoperative CPT code, ICD-10 code and name of facility.

1. What are my full benefits for a screening colonoscopy?

What will be my responsibility/deductible? _____

Are there any limits regarding my age? _____

How often is a screening colonoscopy covered? _____

2. What are my full benefits for a diagnostic colonoscopy?

What will be my responsibility/deductible? _____

3. Is the facility in network? _____

Representative's Name: _____

Call Reference number: _____ Date: _____

Call Cascade Surgeons' billing department at 360-435-6097 with any questions or concerns. They are a great source of information and are happy to help if you are struggling to understand your financial obligations. However, it is still necessary for you to first call your insurance company and ask the above questions.

Can the physician change or delete my diagnosis so that I can be considered a colon screening?

No. The patient encounter is documented as a medical record from information you have provided as well as an evaluation and assessment from the physician. It is a binding legal document that cannot be changed to facilitate better insurance coverage. Strict government and insurance company documentation and coding guidelines prevent a physician from altering a chart or bill for the sole purpose of coverage determination. This is considered insurance fraud and punishable by law.

However, if a patient notices an error in the medical record (e.g. date of birth, medication dosage, history notation, etc.) he/she may request a correction/amendment to the document.

What if my insurance company tells me that Cascade Surgeons can change, add, or delete a CPT or diagnosis code?

This is actually a common occurrence. Often member service representatives will tell a patient that if only the physician coded it with a "screening" diagnosis it would have been covered at 100%. However, further questioning of the representative will reveal that the "screening" diagnosis can only be amended if it applies to the patient.

Remember, many insurance carriers only consider a patient over the age of 50 with no personal or family history as well as no past or present gastrointestinal symptoms as a "screening" (Z12.11).

If you are given this information, please document the date, name and phone number of the insurance representative.

Next, contact our billing department who will perform an audit of the billing and investigate the information given.

Often the outcome results in the insurance company calling the patient back and explaining that the member services representative should never suggest a physician change their billing to produce better insurance coverage.
